

# BASWARE ANALYTICS

## Gain Actionable Insight into Spend, Process KPIs and Suppliers.

Have you empowered everyone to manage their function's spend? Do you have real-time visibility into purchase-to-pay processes and potential discount capture?

Insight into spend, process KPIs and supplier metrics not only drives savings to your bottom line, but it also gives you critical control over your financial operations. Basware Analytics provides all of these capabilities and more in one easy-to-use, highly visual purchase-to-pay reporting solution. You'll uncover bottlenecks and opportunities for savings, as well as ways to streamline operations for greater efficiency and control.

### Insight from the purchase-to-pay expert

Basware Analytics is based on over 30 years of global leadership and best practices in purchase-to-pay. It gives you a holistic view of your operations, with actionable insights and drill-down visibility to share across your organization and beyond.

### Out-of-the-box solutions deliver fast ROI

Basware Analytics includes built-in reporting that can be easily implemented to deliver fast ROI. Its packaged dashboards, reports, graphs and KPIs allow you to quickly identify ways to optimize spend, improve cash management and supplier performance, as well as reduce costs and streamline processes.

### Valuable insights into spend, cash flow and purchase-to-pay

Basware Analytics' KPIs monitor such metrics as matching rates, on-time payments, spend under management, and cycle times. You can drill down into root-cause analysis to easily identify bottlenecks and uncover opportunities for savings.

The tool's interactive data filtering gives you the ability to slice and dice the data in any way, eg. spend volume by category, organization unit, cost center, project or other relevant dimension.

### Advanced graphical data: It's all in how you see it

Basware Analytics' advanced data visualization and reporting tools make data easy to understand. The graphical representations enable you to quickly identify patterns, bottlenecks, and trends. Users can view the information in the pre-built reports and also create their own.

### Fact based decision making

Basware Analytics is easy to implement organization wide, so employees are instantly empowered to make more informed decisions. The dashboards are designed to address the specific reporting needs of different functions and roles within your organization. Users can view reports on their web browser - on their desktop or tablet - to get insights on the go.

Basware Analytics leverages data across the entire purchase-to-pay process, facilitating better collaboration between departments. For example, AP and Procurement departments can identify the top suppliers and trends in payment terms and work together to avoid late payments, capture discounts and improve supplier relationships.

### Easy ad-hoc reporting for faster insights

Basware Analytics' easy-to-use ad-hoc reporting reduces the need for using report developers or outside consultants every time new insights are required. It empowers your key users to find the information they need as self-service.

Basware Analytics gives you the edge you need to grow your business. By gaining insights into purchase to pay, you can better manage spend, cash and supplier relations, while improving processes and ultimately the bottom line.

## Features

- Packaged reports, KPIs, dashboards
- Drill down into root-cause analysis
- Easy ad-hoc reporting for all users
- Customizable views
- Access on your desktop or tablet
- Instant dashboard sharing and scheduled distribution

## Benefits

- Actionable insights into spend, finance, process KPIs

Built using market-leading business intelligence and data visualization technology

### Solutions for Networked Purchase-to-Pay

Basware solutions for Networked P2P are globally scalable. They cover the entire P2P cycle, enabling you to transform your procurement and AP processes:

**Basware Purchase to Pay:** Automate your invoice handling process for visibility and control and increase spend under management.

**Basware Commerce Network:** Collaborate with your suppliers and exchange purchase orders and invoices electronically over the world's largest open commerce network.

**Basware Financing Services:** Optimize cash and working capital and improve B2B relationships by leveraging financing and e-payment solutions on the Basware Commerce Network.

*"The successful execution of the P2P strategies that impact cash positions requires a level of cohesion and visibility across the entire P2P process that is usually best supported by technology solutions."*

- Andrew Bartolini, Chief Research Officer, Ardent Partners

Basware is the global leader in providing purchase-to-pay and e-invoicing solutions in the world of commerce. We empower companies to unlock value across their financial operations by simplifying and streamlining key financial processes. Our Basware Commerce Network enables easy collaboration between buyers and suppliers of all sizes.
